Every winning horse and all such designated horses are under the surveillance of a State Police Officer and a Commission Inspector from the moment the race is over until the specimens of the saliva and urine are obtained.

The samples obtained are transported immediately after the close of each racing day by the State Police to the Racing Laboratory maintained by the Department of Public Safety at 1010 Commonwealth Avenue, Boston, for analysis.

1971
A

This system has met with approval of horsemen by reason of the protection of the samples against tampering before analysis.

At dog racing meetings held during the year of 1971 urine samples were obtained from winning greyhounds and other such greyhounds as may have been designated by racing or commission officials. These samples were also transported immediately by the State Police to the Racing Laboratory of The Department of Public Safety.
